

Dr. Disha Hiren Visaria, MDS

- ✓ **Senior Consultant – Prosthodontics, FMS Dental**
- ✓ **Professor, Department of Prosthodontics, Crown & Bridge**

Executive Profile

Dr. Disha Hiren Visaria is a highly accomplished Prosthodontist, academician and clinician with over a decade of experience in comprehensive dental care. With advanced training in Prosthodontics and Crown & Bridge, she specializes in restoring and replacing teeth with a strong emphasis on precision, function, and aesthetic excellence.

Her clinical expertise spans full mouth rehabilitation, implant-supported restorations, and advanced smile design, where she integrates meticulous treatment planning with interdisciplinary collaboration to achieve predictable and long-lasting outcomes. Dr. Disha is also proficient in digital dentistry workflows, enabling enhanced accuracy, efficiency, and patient comfort in modern restorative treatments.

Alongside her clinical practice, she is actively involved in academic teaching and mentorship, contributing to the training of future dental professionals while maintaining a patient-centered approach rooted in evidence-based dentistry.

Academic Qualifications

- ✓ **Master of Dental Surgery (MDS) – Prosthodontics, Crown & Bridge**
MGM Dental College & Hospital, Navi Mumbai (2020)

 - ✓ Supervises students in prosthodontic procedures and treatment planning
 - ✓ Contributes to academic discussions, evaluations, and departmental clinical services
- ✓ **Consultant Prosthodontist**
FMS Dental
 - ✓ Provides comprehensive prosthodontic care including complex restorative and implant cases

- ✓ Focuses on full mouth rehabilitation, aesthetic restorations, and functional reconstruction
- ✓ Collaborates with multidisciplinary teams for integrated patient care

Core Clinical Expertise

Dr. Disha's clinical focus includes advanced prosthodontic and restorative treatments:

- ✓ Implant-supported prosthesis (surgical and restorative phases)
- ✓ Full mouth rehabilitation and occlusal reconstruction
- ✓ Aesthetic smile designing and veneer-based restorations
- ✓ Complete and partial dentures (conventional and advanced)
- ✓ Overdentures and precision attachment prosthesis
- ✓ Maxillofacial prosthetics and complex rehabilitation cases
- ✓ Fixed prosthodontics (crowns, bridges, ceramic restorations)
- ✓ Digital dentistry workflows for prosthetic planning and execution

Clinical Experience

Dr. Disha has extensive experience in managing a wide spectrum of prosthodontic cases, including:

- ✓ Complex full mouth rehabilitation cases requiring multidisciplinary care
- ✓ Implant-supported restorations for functional and aesthetic rehabilitation
- ✓ Advanced smile design cases focusing on facial harmony and dental aesthetics
- ✓ Removable and fixed prosthetic solutions tailored to patient-specific needs
- ✓ Use of digital tools for precise diagnosis, planning, and execution

Research & Publications

Dr. Disha has contributed to academic research with publications in reputed journals:

- ✓ *Role of Stress as an Etiologic Factor for Oral Lichen Planus* – European Chemical Bulletin (2022)
- ✓ *Enhancing Esthetics Using Modified Ovate Pontic: A Case Series* – Journal of Datta Meghe Institute of Medical Sciences University (2024)

Her research interests focus on improving aesthetic outcomes and understanding multifactorial oral conditions.

Advanced Training & Continuing Education

Dr. Disha is committed to continuous professional development and stays updated with evolving prosthodontic and implant technologies:

- ✓ Bone and Soft Tissue Management Program (2024)
- ✓ Hard & Soft Tissue Summit – Indian Society of Oral Implantologists (ISOI)

- ✓ ISOI National Conference (2021)
- ✓ Continuing Dental Education on Conometric Concepts
- ✓ ITI Congress India (2019)
- ✓ Hands-on training in precision attachment prosthesis

Professional Memberships

- ✓ Indian Prosthodontic Society (IPS)
- ✓ Indian Society of Oral Implantologists (ISOI)

Teaching & Mentorship

- ✓ Actively involved in undergraduate teaching and clinical training
- ✓ Conducts lectures, demonstrations, and case discussions
- ✓ Mentors students in treatment planning and prosthodontic execution

Clinical Philosophy

Dr. Disha believes that successful prosthodontic rehabilitation is a balance of biology, function and aesthetics. Her treatment philosophy emphasizes:

- ✓ Comprehensive diagnosis and individualized treatment planning
- ✓ Restoration of function alongside natural aesthetics
- ✓ Integration of digital technologies for precision and predictability
- ✓ Multidisciplinary collaboration for complex cases
- ✓ Patient-centric care with focus on long-term durability and comfort
