

Dr. Shaik Reshma Parveen, MDS

- ✓ **Senior Consultant – Prosthodontics, FMS Dental**
- ✓ **Associate Professor – Department of Prosthodontics, Sri Sai College of Dental Surgery (SSCDS)**

Executive Profile

Dr. Shaik Reshma Parveen is a skilled and detail-oriented Prosthodontist with over six years of clinical experience in comprehensive dental rehabilitation and restorative dentistry. With specialized training in Prosthodontics, Crown & Bridge, she focuses on delivering functional, aesthetic, and long-lasting solutions for patients requiring advanced dental care.

Her clinical expertise lies in full mouth rehabilitation, smile design, and prosthetic restorations, where she combines meticulous treatment planning with precision-driven execution. Dr. Reshma is adept at managing complex dental cases, integrating fixed and removable prostheses with a multidisciplinary approach to achieve optimal patient outcomes.

Alongside her clinical practice, she is actively engaged in academic teaching and mentoring, contributing to the development of future dental professionals while maintaining a strong commitment to patient-centered, evidence-based care.

Core Clinical Expertise

Dr. Reshma's clinical focus includes advanced prosthodontic and restorative treatments:

- ✓ Full mouth rehabilitation and occlusal reconstruction
- ✓ Aesthetic smile design and ceramic veneers
- ✓ Fixed prosthodontics (crowns, bridges, ceramic restorations)
- ✓ Complete and partial dentures
- ✓ Removable and implant-supported prostheses
- ✓ Interdisciplinary dental treatment planning

Clinical Experience

Dr. Reshma has managed a wide spectrum of prosthodontic cases, including:

- ✓ Complex full mouth rehabilitation cases
- ✓ Fixed and removable prosthetic restorations
- ✓ Complete denture fabrication and rehabilitation
- ✓ Aesthetic smile transformation cases
- ✓ Multispecialty treatment planning for comprehensive care

Research & Publications

Dr. Reshma has contributed to academic research in Prosthodontics with published work:

- ✓ *Comparative Evaluation of Flexural Strength and Hardness of Heat-Cure PMMA Reinforced with Kevlar Fibers, Nylon Fibers, Metal Mesh, and Fiberglass Mesh – An In Vitro Study*
IOSR Journal of Dental and Medical Sciences

Her research reflects a focus on improving material performance and long-term durability in prosthetic dentistry.

Advanced Training & Continuing Education

Dr. Reshma actively participates in professional development to stay updated with evolving prosthodontic techniques:

- ✓ Regular participation in national and international dental conferences
- ✓ Continuous learning in aesthetic and restorative dentistry advancements
- ✓ Exposure to modern prosthodontic materials and techniques

Professional Memberships

- ✓ Indian Dental Association (IDA)

- ✓ Indian Prosthodontic Society (IPS)

Teaching & Mentorship

Dr. Reshma plays an active role in dental education and clinical training:

- ✓ Conducts undergraduate lectures in prosthodontics
- ✓ Provides preclinical and clinical training in tooth preparation, impressions, and prosthesis fabrication
- ✓ Supervises clinical cases involving crowns, bridges, dentures, and implant restorations
- ✓ Mentors students through case discussions, practical exams, and academic evaluations
- ✓ Contributes to curriculum development aligned with modern prosthodontic practices

Community Service & Oral Health Awareness

Dr. Reshma is committed to improving community oral health through:

- ✓ Participation in rural dental camps and outreach programs
- ✓ Conducting oral health awareness initiatives for school children
- ✓ Promoting preventive dental care through public education platforms

Clinical Philosophy

Dr. Reshma believes that successful prosthodontic treatment is achieved through a balance of function, aesthetics, and long-term stability. Her approach emphasizes:

- ✓ Comprehensive diagnosis and individualized treatment planning
- ✓ Restoration of oral function with natural aesthetics
- ✓ Integration of modern materials and techniques for durability
- ✓ Multidisciplinary collaboration for complex cases
- ✓ Patient-centered care with a focus on comfort and satisfaction
